Siksha 'O' Anusandhan (ITER)
B.Tech in Computer Science Engineering
Pursuing – 2nd Year

## SKILLS

- DSA
- JAVA
- FULL STACK WEB DEVELOPMENT

## LANGUAGE

ENGLISH

HINDI

## About Me

I am an undergraduate currently in my 2nd year pursuing a degree in Computer Science Engineering. Alongside my studies, I am also learning Full Stack Web Development to strengthen my technical and practical skills. I am passionate about building interactive web applications and continuously expanding my knowledge in both frontend and backend technologies.

## WORK EXPERIENCE

**CodTech IT Solutions**
Full Stack Web Development Intern (Jun 30, 2025 – Jul 30, 2025 - Ongoing)
- Working as a Full Stack Web Development Intern, gaining hands-on experience in building real-world web applications.
- Contributing to both frontend and backend development using the MERN (MongoDB, Express.js, React.js, Node.js) stack.
- Enhancing practical skills in responsive design, RESTful APIs, and database integration.

**Devtown Free Bootcamp – Completed 2025**
MERN To-Do App Project
- Successfully completed a MERN Stack To-Do App as part of a free bootcamp organized by Devtown.
- Earned certificates of participation and completion from Microsoft and Google.
- Gained foundational experience in building full stack applications, including frontend user interface and backend logic with database integration.

## PROJECTS

- Live ChatApp
- Collaborative Real-Time Editor
- Time Tracking Extension
- To-Do App
- Weather Report Generator
